DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or overbusy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only *symptoms* caused by some uterine disease. The physician, ignorant of the *cause* of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better, because of the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription, *directed to the cause* would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

Disappeared with Gems.

The New York county grand jury has brought an indictment for obtaining money under false pretenses against J. Edward Boeck, of the Republican Club, a bench warrant has been issued for him and the Pinkerton detectives the world over have been instructed to find him.

Boeck was a broker in gems. He lived in splendid style in the Republican Club. He knew Senator Clarke, of Montana, and he was a boon companion with the richest folk in the country. He could bring to a dealer in precious stones during the course of a week more millionaires than any other diamond salesman in New York might hope to bring in the course of a year. He once sold J. Pierpont Morgan a diamond and pearl collar for $100,000.

It was estimated in New York, yesterday, that Boeck got away from New York with nearly $200,000 worth of precious stones entrusted to him as a broker and salesman, and with at least $50,000 in cash that he had borrowed from rich men.

In his desk were found a number of notes for money borrowed from Sol. Guggenheim, of Guggenheim Brothers.

Saddest of all among the seekers after Boeck was a young woman from Pittsburg. She is the only child of a widowed mother. Her father was among the steel kings before the United States Steel Corporation was formed. She has great wealth. Soon after it became known that Boeck had disappeared she went to New York and sought the offices of Marsellus Pitt & Co., asking for him there. On a finger she showed a diamond and emerald ring. It was recognized by the clerk who responded to her call. Inadvertently he mentioned that Boeck had not paid for the ring. The Pittsburg girl tore the ring from her finger and threw it upon the table before her. She burst into tears. She was to have been married to Boeck last February, but the wedding had been delayed. She had loaned him $10,000 in cash.

Socialism a Failure.

Duke Pompeo Litta, the last member of an historical Lombard family, is for the moment the most disappointed man in Milan, Italy. Eight years ago he settled down in Milan in the ancient castle of his ancestors, having until then traveled aboard. During his wanderings he became acquainted with the leaders of German socialism and became a convert to their doctrines.

Upon arriving at his ancestral home he resolved to give proof of his faith. Accordingly, he withdrew all his large estate surrounding his mansion from the occupying tenants and handed it over for cultivation to 137 peasant families working on the estate as laborers, forming them into an agricultural colony on socialistic lines. He charged the new occupants trifling rents, which only aggregated $5,000 for the whole large property.

At first the experiment produced excellent results, and the economical condition of the peasants improved greatly. Litta rejoiced at the success of his altruism, but prosperity proved the undoing of the colony. The peasants grew idle, neglected to till the land, and began to cut down the timber, which it had been mutually arranged should not be touched. Disagreements with the proprietor on this subject led to the rise of the agitator among the community, the members of which were induced to claim absolute ownership of the estate, and refused to work.

The duke, deeply wounded by the ingratitude of his beneficiaries, acknowledges that his dream has vanished.

Girl Murdered.

While Joe Engel, a farmer, of Winfield, L. I., was driving down a road, past the old Seltz farm, at Elmhurst, yesterday afternoon, he saw what he thought to be a bundle of newspapers lying in the middle of the dry weeds, about 200 yards from the road. When the farmer went over to the bundle to investigate he found the body of Amelia Charlotta Staffeldt, a fifteen-year-old girl, daughter of a florist, lying face downward in the furrows. There were two stab wounds just behind her right ear and beneath her body lay a dull kitchen knife.

Engel and a farm hand, Adam Hummel, who was riding with him, saw the girl in the field digging dandelions an hour before. That was while they were hauling a load to Engel's cabbage farm, about a quarter of a mile beyond. On the return trip they had missed the girl, and when they made a third trip along Baxter avenue they saw a man running through Engel's cabbage patch. Engel hailed him, but he did not stop, and the last seen of him he was making his way northward toward a neck of woods beyond.

The girl's clothing was torn and disarranged. About her neck there were marks as if fingers had been pressed on her throat. Blood from two deep wounds beneath the right ear had drenched her body to the waist. The murderer is still at large.

A Hard Debt to Pay.

"I owe a debt of gratitude that can never be paid off, "writes G. S. Clark, of Westfield, Iowa, "for my rescue from death, by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed imminent, when I commenced taking New Discovery. The ominous dry, hacking cough quit before the first bottle was used, and two more bottles made a complete cure." Nothing has ever equaled New Discovery for coughs, colds and all throat and lung complaints. Guaranteed by E. S. Leadbeater & Sons, druggists, 50c and $1.00. Trial bottle free.

Sore Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by W. F. Creighton and Gibson and Timberman.

Let me mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Address me, Dr. Shoop, Racine, Wis. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free Book now. Dr. Shoop's Restorative sold by E. S. Leadbeater & Sons.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

THURSDAY EVENING, MAY 23, 1907.

THAT THE steel trust is deliberately making rails of inferior quality and thereby being largely responsible for the increase of railroad accidents is the charge brought by the Scientific American, the Railway Gazette and other publications of a scientific or technical character. According to the Railway Gazette, the truft has shown "an utter lack of responsibility" in the matter and a "criminal willingness" to make bad rails. Both the Railway Gazette and the Scientific American publish photographs of typical breaks in rails which have ditched trains. The Scientific American explain that the trust has been using lower grade ores which are high in phosphorous, thus making the steel too brittle, and, furthermore, that instead of using only the lower two-thirds of the casts in the mills, which is the solid portion, they also use the top portion, which contains pipes and blowholes. These defects working out in the rails, it is alleged, cause breaks and accidents.

THE PRESBYTERIANS at Columbus, Ohio, yesterday concluded not to enter the political field on the anti-saloon question, and adopted a resolution to that effect. In the preamble they set forth that the Presbyterian Church has always stood for the separation of the church and state, and the General Assembly believes that the church, in its organized capacity, should not, through any of its agencies, be entangled with the political organizations of the state, while urging upon its members as christian voters to take an interest in political affairs, bringing to the service of the state a conscientious performance of civic duties. The course of the General Assembly shows that a majority of the members are wise in their day and generation. The church, heretofore, has accomplished but little by allying itself with political movements.

THE BURNING of ashes mixed with coal, tried by officials of the District of Columbia, has so far been so successful that it is hoped a saving of $50,000 a year may be effected in the one item of ash collection alone. The experiments are being made in the great furnaces of the government printing office and if it is finally demonstrated that the process produces the results claimed for it, the ashes from private residences, which are now thrown away, will be utilized in the heating plants of the District government institutions. It is altogether likely that federal government departments everywhere will follow the example of the local government in utilizing the ashes now thrown away. Should the government find ashes burning to be profitable or saving individuals will soon be adopting the same method.

REV. JAMES E. ENMAN, of Fall River, Mass., has asked the court to agree to separate maintenance for his wife, Anna, alleging that he had to do the family washing with the exception of his wife's shirt waists. The court decided that he was living apart for justifiable cause. This incident brings to mind a chapter in the history of the late Rev. Henry Ward Beecher. Shortly after the celebrated preacher had been ordained to the ministry he was assigned to a church in a secluded place where his salary was barely sufficient to furnish the essentials to life. His wife was taken sick in the meantime, and Beecher, having no money with which to procure help, performed all the house duties, including washing and ironing.

THE Department of Agriculture is notifying residents of Brunswick, Halifax, Hanover and Prince George counties to look out for the thirteen year locusts which will appear in those counties within the next few days and on through June. This periodical locust is so well known that a general account of it is unneccessary. When it appears in great numbers it naturally causes considerable alarm and arouses fears for the safety of fruit and shade trees. The actual damage, however, is in many cases said to be slight, except in the case of newly-planted orchards.

THE presidential campaign is already in full blast, as appears plainly enough from the more or less active movements on behalf of the many "favorite sons" in Roosevelt, Taft, Foraker, Fairbanks, Knox, Cannon and others, not to mention some prime favorities on the democratic side. But there is reason to believe that before long most of these favorite sons will be relegated to the rear as "undesirable citizens" or "dangerous reactionaries."

DESPAIRING in their efforts to attract the unmarried men of the city, bachelor maids of Clark S. D., have petioned the City Council to put a tax on all single men below the age of forty and to administer chloroform to all above that age.

From Washington.

[Correspondende of the Alexandria Gazette.]

Washington, May 23.

Chief Wilkie, of the Secret Service, returned last night from a western trip, which included a stop off at Chicago for the purpose of ascertaing what prospects there are, if there be any, of tracing the whereabouts of the $173,000 stolen from the countingroom of the sub-treasury several months ago. The chief is compelled to admit that the chances look very slim just at present for the government ever recovering the lost money or landing the thieves in jail. Officials in the office of treasurer also take a gloomy view of the case. The bills were of large denomination and their numbers are not known.

Admiral Robley D. Evans, commander of the Atlantic fleet, is boiling mad over the way souvenir fiends looted the Duke of Abruzzi's flagship Varese during a reception at Hampton Roads. The admiral has offically reported the matter to Secretary Metcalf and will make every effort to find the persons who walked away with the duke's gold toilet set, presented to him by his royal cousin, the king, and other valuables that were unguarded in his state room while the visitors had the run of the ship. "I have had so much experience with souvenir fiends," said Admiral Evans today, "that I am not surprised that the Duke of Abruzzi and his officers suffered from their vandalism. The American souvenir hunter will steal anything except a cellar full of water. I know, for I have been the victim of their raids on more than one occasion."

Miss Isabel Emerson Case, who gained notoriety at Oyster Bay last summer by making persistent attempts to see the President and Mrs. Roosevelt, is being held by the authorities for an examination as to her sanity. She was arrested last night near the Pennsylvania station. She was evidently waiting for the President and Mrs. Roosevelt to return from their trip to Pine Knot and it is assumed, intended to accost them. Mrs. Case claims Boston as her home, and says she is a connection of a number of prominent families of that city. She has imaginary wrongs which she wants the President to right.

In the forthcoming number of the Federationist Samuel Gompers, President of the American Federation of Labor, will discuss the present general movement throughout the country for increased wages, reduction of hours of labor and improvement of working conditions. Although always opposed to strikes in principle, President Gompers intimates that labor has been forced into a position where the use of this weapon may become necessary.

The President has heard the plaintive appeal of little Mary Wagner that her convict step-father be pardoned from the Michigan state prison. He has set the wheels of the pardon office in motion, but it is believed that the offense is wholly against the State, and that the case is purely one for the Governor of Michigan to consider. It is another Jean Valjean case. John Allison, a bank robber, escaped after serving six years of a seventeen year sentence. He married a widow with one child at Winona, and did not tell her of his crime until their baby was born. With the cloud of detection hovering over them, Allison worked mantully, until he was recognized and re-imprisoned. The letter which the little stepdaughter wrote the President, in which she says her papa "is not a bad man, and has been good to mamma and me," has been filed, and a formal letter sent her by the pardon attorney enclosing a blank upon which to make her petition for pardon. It requires the signatures of two or more credible witnesses, in addition to necessary facts relating to the prisoner's life, crime, and trial.

All the stories of friction between the White House and Albany may be put down as the malicious creations of the enemies of either the President or Governor Hughes. Congressman Cooks, the representative of the President's home district, called at the White House today to tell the President about a conference he held with Governor Hughes a day or two ago, and to assure him that the Governor feels very friendly, indeed, towards the administration.

W. H. Fehsenfeld, of Baltimore, President of the Red C. Oil Company startled the members of the interstate commerce commission today by charging that the Standard Oil Company had a "big stick," in the form of coercion which it has successfully wielded in its efforts to drive the independent oil concerns out of business. The disclosures were made during the inquiry into the charges of the National Refining Association, of Cleveland O, that the leading railways of the middle west were discriminating against the independents in favor of the Standard Oil in oil shipmen's. Fehsenfeld told of an increase of rates by all southern roads, except the Seaboard, on oil shipments in South Carolina in iron drum or steel barrels, used for that purpose. Upon the refusal of the Seaboard to act, he said the Standard ceased shipment.

Half a dozen railway attorneys were on their feet in an instant, protesting against the admission of the testimony, on the ground of its irrelevance. The commission sustained them, holding that while the testimony was sufficiently important for a special complaint, it could have no bearing upon the present complaint of a reasonableness of rates in Ohio, Pennsylvania, and New York. The Baltimorean intimated that he could supply other striking instances of the use of the "big stick." The railway attorneys charged that attorneys for the independents were striving to prejudice the commission.

President W. E. Wall, of the Refining Association, charged that the railways raised the freight rates on barrel oil immediately after the Standard introduced tank cars. Attorney Wilson, for the railways, tried to beat down his testimony, which was corroborative of others, by pressing him to admit that the independents were making money, and that they could not compete with the Standard, even if a lower rate had been given them. Wall admitted that his companies, as a rule, were prospering, but said they were not making what they should. He declared that in many places they had to depend upon barrel shipments.

Harry K. Daugherty, of Pennsylvania, at present assistant attorney of the Spanish Treaty Claims Commission, was today promoted to membership in the commission, which position was declined by Lawrence Y. Sherman, Lieutenant Governor, of Illinois.

The treasury receipts for today were $2,211,327; expenditures $1,520,000.

Secretary Garfield will employ the same methods the Secretary of the Interior used when weeding out inefficient employees. It is not his intention, however, to summarily dismiss from the government aged clerks who have rendered faithful service. In every case he will try to take care of these clerks in minor positions. The secretary said today that changes would continue to be made in the department until every cog in the system works perfectly.

Lawrence Y. Sherman, lieutenant-governor of Illinois, has declined the appointment as a member of the Spanish Treaty Claims Commission.

"I'd rather that the people had it in their hearts to make me President than to be President" said Speaker Cannon today after a talk with the President at the White House. The Speaker was asked if it were true that the republicans of Illinois had agreed to support his candidacy. "It would be very gratifying to hear it" he said "but not at all modest for me to admit it" then he added "I'd rather that the people had it in their hearts to make me President than to be President." The speaker said he would leave this evening to make an address at Guilford College, Greensboro, N. C., where he was born seventy-one years ago. He said that unless public business called him back he did not expect to return to Washington before November.

President Roosevelt will probably make no reply to Rev. William J. Long, who, in a statement for the press, criticized the President's methods of game hunting. It is understood that the President feels that he effectually disposed of Rev. Long in the authorized article published in a current magazine. On behalf of the President, it was stated at the White House today that Rev. Long was "pretty small game to shoot at twice."

News of the Day.

President Roosevelt returned to Washington last night from Pine Knot, Albemarle county.

The deaths by plague in India during the six weeks ended May 11 were 451,892. In the Punjab alone there were 286,777. As a general thing, the natives resist desperately all sanitary measures, and the officers charged with that work carry it on at the risk of their lives.

Marshal Gregory, of Brookside, near Birmingham, Ala., was shot and killed Tuesday by Felix Itson, a youth of 19, who escaped and is still at large. Itson had been disorderly and the marshal went to arrest him. Itson fired through the window, the load entering the officer's face.

A wild state of excitement prevails at Hasan Abdal, near Rawalpindi, India. The statement has been circulated among the natives and believed, that there is no such disease as the plague, and that the government is dispatching emissaries throughout the Punjab, poisoning the wells and thereby killing 100,000 people a week.

The observation car of a Chesapeake and Ohio train which left Cincinnati for the east at noon yesterday was thrown down a fifty-foot bank at the approach of Lawrence creek, killing Mrs. Mary Halsey, of Milwaukee, and injuring the eighteen other occupants of the car. The forward end of the car caught on a piece of track west of the bridge, throwing the observation car from the track. The derailed car ran along the ties about 100 feet, then went over the bank, rolling over and crushing itself.

Following two hours of exciting debate, which at times became acrimonious and verged on personalities, the Presbyterian General Assembly at Columbus, Ohio, yesterday, at the close of one of the liveliest sessions in its history, adopted, without a dissenting vote, resolutions declaring as its policy that the premanent committee on temperance shall not undertake political work and indorsing the American Anti-Saloon League as a "safe, sane and effective organization in the advancement of the great cause of temperance," and pledging to the fullest co-operation "consistent with the constiution of the church."

When Walter Hunter, a young stock broker, was arraigned before Magistrate Boyle in Philadelphia yesterday morning on charges preferred by fifteen-year-old Mamie James and her sister, the father of the girls was so angered by the nature of the charges that he sprang at Hunter, dealt him a terrific blow in the face and knocked him down. Stalwart policemen and constables attached to the magistrate's office seized the irate parent and restrained him from inflicting further injury upon the prisoner. The accused man was committed without bail. Hunter is Philadelphia manager for Brant Brothers, New York brokers.

Alderson & Son, and W. H. Alderson, and the homes of H. G. and C. C. Burns. Total loss, about $20,000, which is partly covered by insurance.

While no resolutions were adopted at the first day's session of the North American Baptist Convention, held at the Jamestown Exposition yesterday, from the addresses made by members of all three organizations within the association a strong sentiment is revealed against a religious consolidation of the southern, northern, and national conventions, the latter being the negro church, but a general consolidation for concerted work is emphatically favored. There are 5,000 people attending the convention.

Today's Telegraphic News

Murderer at Large.

New York, May 23.—All the efforts of police today to locate the murderer or murderers of Amelia Staffeldt, the fifteen-year-old girl who was choked and stabbed to death yesterday afternoon in a field near her home in Elmhurst, L. I., after being assaulted, have served only to involve the case in deeper mystery. Little was developed at the inquest and the investigators are inclined to believe the murder was the work of a degenerate or an insane man.

The autopsy performed today upon the body of Amelia Staffeldt, revealed that the crime was one of the most shocking that has occurred in many years. As a result of the disclosures hundreds of neighbors of the Staffeldts, heavily armed, are scouring the woods in the neighborhood in the hope of getting some trace of the murderer or murderers.

Coroner's Physician Grey, as a result of his examination, says that Amelia, an undeveloped child, must have been beset from behind by her assailant, who crept upon her as she stooped over, gathering dandelions, and stunned her with a blow on the back of the head. Then, it is supposed, the villain stabbed the girl time and again with the knife she had been using. Five stab wounds in all were found. The two below the right ear apparently caused death, but the murderer turned the body over to jab the girl on the other side of the neck. Then, the autopsy shows, another horrible feature of the crime was accomplished.

Verdict of Not Guilty.

Lexington, Ky., May 23.—Judge James Hargis, leader of the famous Hargis clan in the Breathitt county feud war, was today acquitted by a jury on the charge of conspiracy to bring about the murder of Town Marshal James Cockrill, who was shot down in the streets of Jackson. The jury was out but one hour. A former jury disagreed. Curt Jett and Tom White were convicted of the murder of Cockrill, who was an enemy of the Hargis-Callahan clan. John Smith, another of the alleged conspirators, confessed and later repeated that the murder had been inspired by Judge Hargis, Alex. Hargis, Elbert Hargis and Sheriff Callahan. All were indicted. Smith implicated the Hargises and Callahan in the plot to murder Dr. Cox and J. B. Marcum, both enemies of the Hargis clan, who were shot to death in Jackson. The case was tried here because Cockrill, though shot in Jackson where the feud war raged, was brought here and died. Hargis and Callahan were also tried for the murder of Dr. Cox and the venue was charged to Sandy Hook, an accessible mountain town where it is to be called Monday. The court of appeals has been asked to order the trial back to Jackson, but has not yet handed down its decision. It is expected the case will be postponed. Jett and White were also convicted of the murder of Marcum. They are serving life sentences in Frankfort.

Wholesale Plot.

St. Petersburg, May 23.—The sensational declaration that the recently discovered plot against the Czar was of much wider scope than has hitherto been suspected and really contemplated nothing less than the destruction of the whole palace at Tarskoe-Selo and killing all members of the royal family at once, is made today by the Novoe Vremya. All St. Petersburg is aroused by the disclosures the newspaper says have been made. During the winter months, it is stated, the conspirators had succeeded in entering the imperial service at the palace. It was the plan to distribute a number of powerful infernal machines throughout the giant stracture, and by exploding all at once destroy the entire palace and all its occupants together. From letters found, it is said that several American anarchists known in the United States were involved.

Warning from the Bench.

Boston, May 23.—"Poco" Bennett, the ole clo'man and money lender, who is one of the families figures about the Harvard yard, was the text of a sermon preached by Judge Fessenden in sentencing George P. Bowler, the spendthrift Cincinnati student, for forgery. Although Bowler had pleaded guilty to forging his brother's name to notes on "poco" to the value of $16,000, the court let him off with a mild sentence of about ten months in the reformatory. In passing sentence the judge issued the following warning to Harvard men: "I am satisfied, after a thorough examination of all the evidence and matter presented to me, that the defendant in this case was led to commit the crime by Bennett, the holder of the notes, and that he would not have committed the forgery but for Bennett's influence."

Corey and the Steel Corporation.

Pittsburg, Pa., May 23.—"If W. F. Corey leaves the United States Steel Corporation it will be to become associated with Charles M. Schwab in the Bethlehem Steel Co." This statement was freely made in Pittsburg today where rumors were rife all day of Mr. Corey's resignation. Mr. Dinkey, president of the Carnegie Steel Company, said emphatically: "I do not think that there will be any new president of the United States Steel Corporation. In my opinion Mr. Corey will remain in the presidency for a long time to come."

Says Taft Will Not be Nominated.

Chicago, May 23.—"Wm. H. Taft will not be the next nominee of the republican party," said Mr. Walkelman, of New York, General Secretary of the America Protective Tariff League, at the Auditorium Hotel last evening." The reason is simple. Taft is a free trader and the republican party stands for protection of America industries. His policy, both in the Philippines and at the Isthmus of Panama, was for free trade and not for protection of the American industries."

McCarrison, who was a well-to-do farmer, came home intoxicated on May 11 and began abusing his wife. He drove the four children from the house, and when she remonstrated struck her with a poker. Then he seized William, 14 years old, and he was choking the boy, when the mother interfered. She grabbed his revolver and fired two shots into the wall to frighten him. No Trace of Lost Child.

Wilmington, Del., May, 23—No trace has been found of Francis Malley, aged four years, who disappeared suddenly from his home on Tuesday afternoon. Every efforts to get some trace of the missing child has been in vain. The child was last seen standing near the Brandywine bridge talking to an Italian, and the police are working today on the theory that the child may have wandered down to the creek and was drowned. So distracted over the disppearance of her child, Mrs. Maley, the mother, is in a serious condition this morning. Following so closely on the Marvin case, the disappearance of the child has created a distinct sensation.

Battle on a Train.

Sayre, Pa., May 23.—Thinking he had a train robber in his grasp, William Fisher, a Lehigh Valley engineer, had a desperate fight in his cab with a hobo early Tuesday morning while the train was speeding to the summit near White Haven. Fisher drives express train No. 19 regularly between Easton and Sayre. The train is one of the fastest on the road, and it carries no passengers. The safes in the express cars usually contain large amounts of money in transit from New York banks to the west. In order to make time up the mountain near White Haven another locomotive was coupled ahead of the one Fisher was driving. In the gleam of the headlight shining from his machine against the tank of the helping engine ahead Fisher saw a human form on the running board. He thought the fireman ahead was coming back for instructions, so he opened the door of his cab. A big man entered, and Fisher realized at once that he had made a mistake.

In a guttural voice the intruder cried, "Lemme past." Before Fisher could gather his wits, the fellow crushed him against the side of the cab. Instantly through the brain of the engineer flitted the thought of the treasure in the express cars behind. Visions of western highwaymen trying to work their trade in the east filled his mind. He thought the intruder was preparing to overcome him and stop the train in a desolate place where confederates could rifle the safes. He seized a wrench, but the first blow missed its mark. Then the men clinched. Fisher is a large man but his opponent was much larger and much stronger. To and fro they scuffled for several moments until, in the dim light from the small gange, Fisher saw an opening, and the wrench descended on the head of the giant. He fell against the rear door of the cab. One of Fisher's hands sought the whistle rope, and the fireman responded to the call. One blow from a coal pick held by the fireman broke the glass in the rear door and another laid the intruder to the cab floor. Then Fisher shut off steam and signaled the locomotive ahead to stop. The man was pinned to the cab floor. He explained that he was cold, that he had been riding on the pilot, and that he simply entered the cab to get warm. Fumes of whisky in his breath substantiated the story that he was simply a hobo, and after obeying the order, "Get off and hurry up," throttles were opened and the express train continued its journey.

Members of the Yardley church included many residents of the lower end of Bucks county, and immersions in the Delaware here were frequent. Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Later the Confederate monument at the intersection of Prince and Washington streets and the Confederate mound in Christ Church yard will be decorated. At 4:30 o'clock in the evening the members of Lee Camp will assemble at their hall and, escorted by the Alexandria Light Infantry and headed by a drum corps, will march through some of the principal streets of the city. The route of the procession will be as follows: Alfred to King, up King to Fayette, counter-march on King to Fairfax, Fairfax to Duke, Duke to Washington, thence to the Confederate monument, where suitable exercises will be held. Commander W. A. Smoot will preside and introduce Rev. C. D. Bulla, the orator of the occasion. Rev. W. J. Morton will offer prayer. A choir composed of a number of Alexandria singers will render appropriate selections. After the exercises at the monument Lee Camp and the Light Infantry will again form in line and march to Christ Church yard, where at the Confederate mound the final exercises will be held and "taps" will be sounded.

Sunday School Institute.

A permanent organization was effected at the first annual convention of the Sunday School Institute of Washington District, M. E. Church South, yesterday in the Methodist Church South in this city. A. L. Deitrich, of Washington, was elected president, and W. L. Brannan, of Fredericksburg, was chosen secretary. The following, with the president and secretary, constitute the executive committee: W. W. Millan, of Washington, chairman; J. L. Gorrell, of Catletts, and G. W. Laycock, of Hamilton.

At the close of the afternoon session the members of the institute and many others attending the meeting repaired to site upon which the George R. Hill Memorial Hall is to be erected when Rev. C. D. Bulla raised the first shovelful of earth. A photographer who was present took pictures of the ceremony.

The visitors were later entertained at luncheon and dinner by the ladies of the church in the lecture room.

The institute met again at 8 o'clock last night when the following programme was carried out: Devotional exercises, Rev. W. H. Ballenger; 8:15, address, "The Organized Adult Class," A. B. Pugh, esq.; 8:35, address, "Sunday School Management," Rev. Charles Alvin Smith, pastor of Peck Memorial Presbyterian Church.

Request for Information.

Mr. Harry S. Brown, Division No. 317, Brotherhood of Locomotive Engineers, of this city, and Charles Bentheim, attorney for the brotherhood, yesterday called on Commissioner West of the District of Columbia with a request for information concerning the delay of the police trial board in submitting its verdict in the case of Capts. Mathews and Mulhall, who were tried on a charge of conduct unbecoming officers, in official interference with the efforts of railroad men to rescue Engineer Hugh S. Murphy from a wreck on the Southern Railway in Washington, during September last. Commissioner West stated that the matter has not yet been called to the official attention of the Commissioners, and that he did not know the reason for delay. The Commissioner yesterday requested Maj. Sylvester to inform him as to when the verdict may be expected, the findings of the trial board being submitted through the office of the superintendent of police to the Commissioners. The Commissioners have stated that if the verdict is unsatisfactory a public hearing will be given upon request of the brotherhood or others interested.

Death of Former Resident.

Mr. George S. Coleman, a former resident of Alexandria, where he had many friends and acquaintances, died in Washington on Tuesday. The deceased was in his 82d year. The funeral services were held at his daughter's residence, 1853 Ninth street, at 1 o'clock this afternoon. The remains were later brought to this city and the interment was made in Bethel cemetery. Mr. Coleman, came, who was a contracting mechanic, to Alexandria with his family during the civil war, and for many years resided at the northwest corner of Wilkes and Washington streets. He later erected a fine and modern dwelling at the southwest corner of Princess and St. Asaph streets, where the family resided until the death of Mrs. Coleman, a few years ago. The deceased was a quiet and good citizen, and his many friends and acquaintances will regret to hear of his death.

Personal.

A very charming informal tea was given Tuesday afternoon by Miss Loulie L. Taylor in Norfolk in honor of Miss Nettie Aglionby, of England. Among those present was Miss Patty Washington, of Alexandria.

Among the marriages at Rockville, Md., yesterday were those of Mr. Chas. Edwards Poole, of Vienna, Fairfax county, and Miss Sadie R. Ticer, of Alexandria, and Mr. William Bond, and Miss Stella Travers, both of this city.

Mr. Starnell's Hennery.

"The Feather," a magazine published in Washington in the interest of the poultry and pigeon industry, contains a two-page illustrated description of Mr. E. W. Starnell's hennery in this city. The article describes the laying power of Mr. Starnell's barred Plymouth Rock chickens, as well as the modus operandi of that gentleman in the care of his fowls. The periodical also contains a picture of Mr. Starnell.

Miss Marie Gruber, daughter of Prof. S. F. E. Gruber, died last night at her home, at Marion, N. C.

The Latest Chicken Story.

Mr. T. V. Risheill, of this city, contributes the latest chicken story in the shape of an extract from a Rossville, Pa., paper. Abe Williams, a chicken fancier of that place, is represented as telling the following remarkable story: "I started my incubator along about the time that I thought the winter was over, and a few weeks ago there was hatched out the finest lot of chickens I have ever seen. Every one of them was healthy, and I figured out a large profit. Then we had the snow storms and the cold weather. Those chickens were astonished at the way the weather acted. They did not die, but acted sort of foolish. The cold weather kept up. Finally those peeps became convinced that they had arrived a mite too early, and nature told them what to do. Instead of growing they began to get smaller and smaller, until they were no bigger than the day they were hatched. They lost all their pin feathers and retrograded until every one was covered with down. Then the amazing thing happened. Hunting up the incubator, the whole lot settled down in the heat, and in less than two days shells had grown over them. I opened an egg yesterday, and, bless me, if it wasn't as fresh as the day I put it in."

Scale of Wages Agreed Upon.

A scale of wages has been agreed upon between the steamboat captains and pilots and the managers of the steamboat lines on the Potomac. The scale of wages was fixed at a conference held a few days ago. It provides that steamers plying below Sandy Point will pay captains $100, pilots $75 and deck mates $60 a month, and above Sandy Point the captains are to be paid $80 a month and mates $65 a month. The difference which has existed between the steamboat lines and their engineers will be the subject of a conference to be held in Washington shortly between representatives of the National Association of Engineers and managers of the steamboat lines.

House Sold.

The frame house which has been standing at the intersection of Cameron and Alfred streets during the past two weeks, will not change its abode from the Third to the First ward. It is now retrograding toward the northwest. The structure has been purchased by a gentleman living in that section of the city, and it will as soon as possible be placed upon a lot which has been provided for it.

Funeral.

The remains of Reginald Fairfax Hyde, whose death occurred Tuesday at Marshall, Va., were brought here yesterday afternoon and interred in Ivy Hill cemetery. The services were conducted by Rev. P. P. Phillips, rector of St. Paul's Episcopal Church. The following were the pallbearers: Messrs. John R. Zimmerman, R. F. Knox, Charles S. Taylor, William Bryant, Arthur Herbert, and Ethelbert Fairfax.

Stampeded from Train.

The electric train which left Washington at 10:45 last night collided with a railway gate a short distance north of Arlington Junction. Glass in the cars was broken and the passengers considerably alarmed. It is said that the men stampeded from the cars, two jumping from windows. Fortunately no one was seriously injured.

Good Words for Chamberlain's Cough Remedy.

People everywhere take pleasure in testifying to the good qualities of Chamberlain's Cough Remedy. Mrs. Edward Phillips, of Barclay, Md., writes: "I wish to tell you that I can recommend Chamberlain's Cough Remedy. My little girl, Catherine, who is two years old, has been taking this remedy whenever she has a cold since she was two months old. About a month ago I contracted a dreadful cold myself, but I took Chamberlain's Cough Remedy and was soon as well as ever." This remedy is for sale by W. F. Creighton and Gibson & Timberman.

Election Declared Void.

The Court of Appeals of Kentucky yesterday handed down its opinion in the contested election cases from the city of Louisville and Jefferson county, upholding the contentions of the fusionists and declaring the election void, thus reversing the decision of Judges Miller and Kirby, of the Jefferson Circuit Court. The court rules that Governor Beckham has the power to fill the vacancies by appointment, and an election for all city and county officials is ordered for next November.

The opinion deals in detail with election outrages and the use of the police at the polling places on registration and election days. It declares them to be as repulsive to the citizen as would be the use of State troops, and not to be tolerated in future elections. The campaign methods of both fusionists and democrats in the election are denounced, and so is the use of over $100,000 campain fund in the contest.

A terrific explosion in crowded Mott treet, New York, yesterday, killed one hild, seriously injured seven others, two of them possibly fatally, and struck terror to the hearts of hundreds in the crowded thoroughfare. The cause of the explosion has not yet been explained. Residents of the neighborhood believe the act due to the Black Hand Society. The police incline to the belief that the explosion was an accident and was due to negligence. A few days ago there was a celebration in the Italian quarter, and the police believe one of the aerial bombs used on that occasion found its way into an ash can and was mysteriously discharged while the can was standing on the sidewalk.

Renounced Religion, Committed Suicide.

Because she had renounced her religion and the fact so preyed upon her mind that she could think of nothing else, Mrs. Nancy J. Kyrk, the wife of Harvey Kyrk, a prominent farmer of near Fair Oaks, near Middletown, N. Y., tied a heavy weight around her neck yesterday morning and, wading into the middle of a shallow pond, laid down and was drowned in about two feet of water. Mrs. Kyrk was probably one of the most thorough Bible students in Orange county, N. Y. She was familiar with every passage, and could quote off-hand from any part of it. She belonged to the Methodist Episcopal denomination and conducted prayer meetings at home, at which she was an enthusiastic leader. Recently, her husband states, she renounced her religion. Several weeks later she began to regret her action, and the matter so worked upon her that she was unable to stand the thoughts of her act. Mrs. Kyrk was of gentle disposition, had not acted at all queerly, and had never hinted at taking her own life.

Meeting of Board of Visitors.

The May meeting of the board of visitors of the University of Virginia held yesterday, the only absentees were Judge J. K. M. Norton, of Alexandria, and Eppa Hunton, jr., of Richmond.

The board did not elect a successor to Prof. Francis H. Smith, of the school of physics, who resigned in January, to take effect at the close of the present session, but Adjunct Professor L. G. Hoxton was designated to take charge of the chair for the session of 1907-08.

Prof. W. M. Lile, dean of the law department, was given a leave of absence for next session. Professor Lile and his family expect to spend a year in Europe. Mr. Armistead M. Dobie, of St. Louis, formerly of Norfolk, Va., will take certain classes. C. M. Chichester, of Fredericksburg, and A. Stuart Robertson, of Staunton, were appointed instructors of law.

He Fought at Gettysburg.

Davis Parker, of Fayette, N. Y., who lost a foot at Gettysburg, writes: "Electric Bitters have done me more good than any medicine I ever took. For several years I had stomach trouble, and paid out much money for medicine to little purpose, until I began taking Electric Bitters. I would not take $500 for what they have done for me." Grand tonic for the aged and for female weaknesses. Great alterative and body builder; sure cure for lame back and weak kidneys. Guaranteed by E. S. Leadbeater & Sons, druggists, 50c.
